

Scientific-practical Meeting: Energy Security and Independence

RE: Invitation to the scientific-practical meeting on energy security and independence

The political geography of the world is changing rapidly. The collective West makes great effort to maintain the "status quo" in the arrangement and distribution of power and wealth but, at the same time, other processes are taking place that West cannot influence. Accelerated changes are particularly visible during the last few years.

During the global biological-informational war, coded Corona/Covid/Sars Kov 19 and launched by the collective West at the beginning of 2020, disruption of the established maritime and land transport-logistics routes between the continents took place. In the next phase, after the start of the SVO of the RF Armed Forces in February 2022, transport routes in Europe were also disrupted. We are witnessing now unfolding and new developments in West Asia these days - more specifically in the Red Sea, which is one of the main transport corridors for basic energy products from that region.

This meeting will bring together experts from several countries to present their expert and practical views and propose solutions and foundations for improving energy security and, consequently, independence.

For now, participation of experts from Serbia, Republika Srpska, Russia, Montenegro, and Italy has been confirmed. The final list of participants and time-table will be sent soon.

Framework topics:

- * Natural resources and state policy
- * Old and new transport corridors
- * Oil / natural gas / water / mineral resources
- * Legal and administrative regulation of the energy sector
- * Terrorism and sabotage of energy systems
- * Green agenda - political ideology or practical application
- * Design, construction and maintenance of energy systems

The meeting is scheduled for June 11, 2024, from 9 am at the Balkan Hall of Moskva Hotel in Belgrade.

We hope You will join us and attend the conference. We also hope there would be a chance in future to cooperate closer in terms of the representatives of Your country at our events.
